

This is a sample template

Alan Parsons

Last Updated: July 1, 2007

This is an example of a template with the layout- "single box with heading".

You can change the heading by entering a different heading in the box provided.

There is a lot of room to add detail to this template layout.

Dont forget to add spaces between paragraphs so that the text is easy to read.

Press enter to add spaces to the text as you would for a Microsoft Word document.

The box surrounding the text will automatically increase in size as you add more information to the page.

When you add a picture of your child it will appear at the top right hand corner of the page.
